[Mother's Day   ]

Mother's Day is the second Sunday in May.   They say its origins lie in England in the 1600s.   In 1907 Ana Jarvis established Mother's Day in West Virginia, America.   She chose the second Sunday in May as it was the second anniversary of her mother's death. By 1911 Mother's Day was celebrated throughout America.   It became a National Holiday in 1914.
