

分数（発てん）

年 組 番

## 帯分数のひき算 2

名前

次の計算をしましょう。

$$1\frac{1}{5} - \frac{3}{5} = \frac{6}{5} - \frac{3}{5} \\ = \frac{3}{5}$$

$$1\frac{2}{7} - \frac{5}{7} = \frac{9}{7} - \frac{5}{7} \\ = \frac{4}{7}$$

$$1\frac{2}{9} - \frac{3}{9} = \frac{11}{9} - \frac{3}{9} \\ = \frac{8}{9}$$

$$1\frac{1}{3} - \frac{2}{3} = \frac{4}{3} - \frac{2}{3} \\ = \frac{2}{3}$$

$$1\frac{1}{7} - \frac{3}{7} = \frac{8}{7} - \frac{3}{7} \\ = \frac{5}{7}$$

$$1\frac{2}{7} - \frac{3}{7} = \frac{9}{7} - \frac{3}{7} \\ = \frac{6}{7}$$

$$1\frac{5}{9} - \frac{7}{9} = \frac{14}{9} - \frac{7}{9} \\ = \frac{7}{9}$$

$$1\frac{1}{11} - \frac{3}{11} = \frac{12}{11} - \frac{3}{11} \\ = \frac{9}{11}$$

$$1\frac{2}{9} - \frac{7}{9} = \frac{11}{9} - \frac{7}{9} \\ = \frac{4}{9}$$

$$1\frac{3}{11} - \frac{7}{11} = \frac{14}{11} - \frac{7}{11} \\ = \frac{7}{11}$$
